SUTTON VOLUNTEER FIRE DEPT.

The Town of Sutton had a very favorable year in regard to fire.

The Volunteer Fire Dept. received 14 calls, all of which were of a minor nature. Nine calls for fire in buildings and five outdoor fires.

There was no property lost by fire. The wet season held outdoor fires to a minimum.

All of the hose that we have is 10 years old. It is not too dependable at good working pressure. A start should be made this year to replace it with new hose.

I suggest the sum of \$220.00 be raised at this Town Meeting for that purpose.

Sincerely,

VERNON F. WEST, Chief

Sutton Volunteer Fire Department.

REPORT OF FOREST FIRE WARDEN

Board of Selectmen

The attached item has been prepared in the hope you may find it possible to publish it in the annual town report. Judging from previous years' experiences, such published items have proven valuable to the extent of causing local residents to be more careful and cooperative. Your cooperation in getting it published will be appreciated.

District Fire Chief.

Only YOU can PREVENT Forest Fires

New Hampshire faces a real forest fire problem and challenge! To meet it successfully, New Hampshire and your community needs YOUR thoughtful and cooperative effort.

Continuously heavy lumbering operations following the hurricane has produced more than 4 billion board feet of lumber. This lumber helped win World War II, meet post war needs and now the current requirements for the Korean military action. But it has added nearly 900,000 acres of slash to our already sizeable slash problem.

When YOU fail to use needed precautions while burning in or near woodlands —

When YOU fail to secure the required permit from your local forest fire warden before burning —

When YOU are careless in smoking near woodlands —

When YOU throw lighted cigars, cigarettes and matches from vehicles moving along the highway —

YOU are violating fundamental common sense and may easily contribute to a substantial and costly fire. Such conflagrations are possible because of the hundreds of thousands of slash acres throughout the state!

REMEMBER — the fire YOU prevent might be one which could conceivably burn YOUR property and harm YOUR community!

ONLY YOU and YOU and YOU can prevent forest fires ! Will YOU help!

REPORT OF THE SUTTON PLANNING BOARD

This year the dry hydrant, planned for South Sutton last year was installed. It has been inspected by the Underwriters and will be credited to the Village in their insurance rates.

The project for 1951 was another Dry Hydrant at North Sutton. It has been installed and is ready for use. The hydrant was installed at the roadside, at the rear of the Follansbee Inn. The Inn provides a considerable amount of taxes. A fire at this location would have a serious effect on our economy.

There were enough funds available to carry out a smaller project near the Bickford property. A water hole was dynamited. The water at that location could be of use both for building fires, or forest fires on that road.

The Planning Board recommends that an article be put in the Town Warrant to blow out the rocks in the back of Millwood Cemetery to keep the meadows from overflowing in Sutton Mills.

Sutton still has the problem of providing adequate housing for the children of the town. Although the School Board had done some painting to make the buildings' appearance more attractive, nothing has been done to improve the basic conditions of the school buildings. On cold days the buildings are extremely uncomfortable and unhealthy; impossible to heat. These conditions will certainly not encourage people to buy or build in the town of Sutton for the purpose of year around residence. All other things being equal, people are going to establish homes in the communities that have good schools.

Last year, through a technicality, the School District was prevented from voting on the Capital Reserve Fund which would have permitted the School District to set aside a sum of money up to one half of one percent of the assessed valuation. This seems to me to be good business and sound planning and should have been done five years ago. One of the towns in this Union have been building such a fund. They have buildings that are in excellent condition now, but when they do have to build new buildings, they will have a tidy sum laid aside for just such a purpose.

Another of the towns which has had one room schools, in the same conditions as yours, decided last school meeting to build a new school. By the time this is in your hands the children will be in the new building. It has two large classrooms, centrally heated; a small lunch room and kitchen, and a combined teachers' room and health room. What can be done in that town can be done in Sutton.

The instruction in the schools is very good and the teachers should be commended for carrying on so well under difficult conditions. This year all the teachers have

had a year's experience in the district. As a result, the teachers have worked very well together.

The State Aid Bill as passed by the Legislature, will not give Sutton any State Aid for schools, either this year or next. The problem of an adequate tax base must be settled before we will have an adequate aid bill.

The year has been a pleasant one in Sutton and the teachers and school board have been very cooperative. I wish that more people would attend the Parent-Teacher Club so that I could become better acquainted with the people of Sutton. I am sure that every one, parents or friends, would be welcome to attend the meetings.

ROADS AND OTHER MATTERS

The overdraft of the Town Maintenance appropriation is considerable but we call your attention to the fact that a large part of this is directly accountable to the storms of November 1950 and April 1951. We were given to understand that if the cost of repairing this storm damage exceeded an amount equal to one-eighth of one per cent of the town's valuation that the balance might be paid from the current Town Road Aid fund. A large part of the Town's share was spent in the fall of 1950, but, in accordance with the State engineer's estimates, we were allowed only \$1,000.00 from the TRA fund for storm damage repairs which cost us \$2,079.39. This overdraft of \$1,079.39, together with the more-than-usual amount of snow plowing for the month of December 1951, accounts for the Town Maintenance overdraft.

No work was done at the Millwoods Cemetery in regard to the landscaping, and the appropriation of \$100.00 made at the last town meeting is still available for this purpose. The number and variety of ideas suggested prompt your selectmen to propose that the Town Planning Board be authorized to decide, subject to the approval of the Selectmen, what should be done and then to see that their plans are carried out.
